

Handling Unsigned ActiveX Error in Explorer Browser

1. Right click on Internet Explorer icon
2. Click **Internet Properties**
3. Click the **Security** tab
4. Click the **Custom Level** button
5. Scroll down the **Security Settings** box to **Download unsigned ActiveX controls**
6. Click the **Prompt** option
7. Click **OK** on the **Security Settings** box
8. Click **OK** on the **Internet Properties** box

You should be able to download and install the ActiveX control to install the AverMedia remote viewer application now. If problems persist, please call 308-381-5802 for technical assistance from A.C. Technologies.
